

Deconstructing Homophobia & Transphobia

TOP 4 reasons to request this training.

-  Gain understanding of the systemic barriers that restrict access to health services for LGBTQ community members.
-  Build understanding of the relationship that LGBT history has on current HIV-related disparities.
-  Learn and share best practices for institutional change to promote LGBTQ-inclusive services.
-  Build strategies to reduce the impact of transphobia and homophobia on HIV prevention and care systems (Goal # 3 of NHAS).
