If a minor meets the criteria under either statute, the minor may consent to his or her own treatment. If the minor meets the criteria under both, the provider may decide which statute to apply. There are differences between them. See endnote ** for more on these differences:</p> <p style="text-align: center;"><u>Family Code § 6924</u></p> <p>“A minor who is 12 years of age or older may consent to mental health treatment or counseling on an outpatient basis or to residential shelter services, if both of the following requirements are satisfied:</p> <p>(1) The minor, in the opinion of the attending professional person, is mature enough to participate intelligently in the outpatient services or residential shelter services. Providers that don’t meet these criteria follow state law.</p> <p>FEDERAL: Federal confidentiality law applies to any individual, program, or facility that meets the following two criteria:</p> <ol style="list-style-type: none"> 1. The individual, program, or facility is federally assisted. (Federally assisted means authorized, certified, licensed or funded in whole or in part by any department of the federal government. Examples include programs that are: tax exempt; receiving tax-deductible donations; receiving any federal operating funds; or registered with Medicare.)(42 C.F.R. §2.12); AND 2. The individual or program: <ol style="list-style-type: none"> 1) Is an individual or program that holds itself out as providing alcohol or drug abuse diagnosis, treatment, or referral; OR 2) Is a staff member at a general medical facility whose primary function is, and who is identified as, a provider of alcohol or drug abuse diagnosis, treatment or referral; OR 3) Is a unit at a general medical facility that holds itself out as providing alcohol or drug abuse diagnosis, treatment or referral. (42 C.F.R. §2.11; 42 C.F.R. §2.12). <p>For individuals or programs meeting these criteria, federal law prohibits disclosing any information to parents without a minor’s written consent. One exception, however, is that an individual or program may share with parents if the individual or program director determines the following three conditions are met: (1) that the minor’s situation poses a substantial threat to the life or physical well-being of the minor or another; (2) that this threat may be reduced by communicating relevant facts to the minor’s parents; and (3) that the minor lacks the capacity because of extreme youth or a mental or physical condition to make a rational decision on whether to disclose to her parents. (42 C.F.R. §2.14).</p> <p>STATE RULE: Cal. Family Code §6929(c). Endnotes:

- * There are many confidentiality and consent rules. Different rules apply in different contexts. This chart addresses the rules that apply when minors live with their parents or guardians. It does not address the rules that apply when minors are under court jurisdiction or in other special living situations. Further, the confidentiality section focuses on parent and provider access. It does not address when other people or agencies may have a right to access otherwise confidential information.
- ** In addition to having slightly different eligibility criteria, there are other small differences between Health and Safety Code §124260 and Family Code § 6924. For example, the two laws both allow “professional persons” to deliver minor consent services but the two laws define “professional person” differently. Also, there is a funding restriction that applies to Health and Safety Code §124260 but not to Family Code § 6924. (See Cal. Family Code 6924, Cal. Health & Saf. Code § 124260 and Cal. Welf. & Inst. Code § 14029.8 and look for more information on www.teenhealthlaw.org).

EXC: Providers may refuse to provide parents access to a minor’s medical records, where a parent normally has a right to them, if “the health care provider determines that access to the patient records requested by the [parent or guardian] would have a detrimental effect on the provider's professional relationship with the minor patient or the minor's physical safety or psychological well-being.” Cal. Health & Safety Code § 123115(a)(2). A provider shall not be liable for any good faith decisions concerning access to a minor’s records. *Id.*
